### Amendment Voted to Relieve Users of All-American Canal Water From Interest Payments

WASHINGTON, March 1. (Exclusive)—Getting down to brass tacks on Boulder Dam for the first time this session the Senate Irrigation Committee today adopted an amendment to the bill

TEXT OF AMENDMENT

ACTION EXPLAINED

Irrigation Committee today adopted an amendment to the bill sponsored by Senator Johnson of California relieving users of water from the proposed all-American canal of paying interest on the estimated \$51,000,000 which the canal will cost.

The amendment was proposed by and continued until adjournment senator Pittman of Nevada and says simply that the government late in the day. In between the committee by its first record vote had rejected, six to four, another headers Reclamation Act. Acceptance of the amendment, which was without a record vote and practically without apposition, is said to mean that the all-American canal end of the Boulder dam project is placed on the same plane as other reclamation and irrigation developments in the West and Southwest. The action seemed to indicate a general tendency to lift interest charges from the whole Boulder dam project but apparently this was not the case for a little later the committee got into prolonged wrangle over another amendment put forward by Senator Pittman, which likewise would eliminate interest on the estimated \$20,000,000 increasary to build the purely flood-control portion of Boulder dam.

The Senators who voted for the

committee chairman and author of
a compromise Boulder Dam bill,
which later probably will be offered
as a substitute for the Johnson bill,
Ashurat of Arizona, and Pittman

Explaining the seemingly contradictory action of the committee on the all-American canal and flood-control amendments, persons close to Senator Johnson said tonages in the lifting of interest on the canal is in line with the policy of the government on reclamation and irrigation projects, while the suggestion that the flood-control section of the dam be free from interest charges is without precedent. This explanation, while it may suffice for the moment, is hardly expected to stand all through the Boulder dam controversy as it is fought out in the committee now, and on the floor of the Senate later on. It is pointed out that if a precedent is needed one may be supplied when the government gets through formulating its Mississippi flood-relief program. There is a feeling that the Pittman amendment on the canal was put over on the committee as a "fast one," and that members of the committee, including Senator Johnson, did not fully appreciate its effect. In that case it may be knocked out later, depending whether Johnson really has control of the committee situation.

"I did not know of the existence of the Continental Trading Company at the time I assisted in raising the defict of the Republican National Committee and first heard of it in the public reports of the trial in Cheyenne, Wyo.

"I do know, however, that Harry P. Sinclair did turn over to me for the benefit of the Republican National Committee in connection with the deficit a certain amount of government bonds, and these bonds may or may not have been originally in the possession of the Continental Trading Company."

Telling of his personal appeal to the oil operator, the former chairman said Sinclair had told him he would make a personal contribution, which he thought should not exceed \$75,000.

"He also said he would turn over to us approximately \$185,000 in government bonds in addition to his contribution for such use as might become necessary upon my assurance that he would be repaid the total amount advanced in excess of the \$75,000 contribution," Hays continued.

# Southern Pacific Cuts Time East

## "Golden State Limited" 611/4 hours to Chicago

The direct line East

Beginning March 4 the superb "Golden State Limited" will save nearly two hours more from Los Angeles to Chicago. Leaving here one hour later (6 p.m.), you arrive Chicago 45 minutes earlier (9:15 a.m.).

This is the second reduction in time East made by Southern Pacific in recent months, making a total saving of 6 hours and 45 minutes over previous schedules from California to Chicago, and affording better connections East.

There is no faster nor finer train to the East than "Golden State Limited." Its diners, club cars, Pullman and observation cars are of latest design. Shower baths, valet, barber, ladies' maid.

Southern Pacific's famous "San Francisco Overland Limited"-San Francisco to Chicago-will make a similar cut in time March 4.

## Setting the Pace in

In addition to this faster transcontinental service, here are a few notable betterments recently made by Southern Pacific.

1. New Main Line in Arizona completed, placing Phoenix on route of transcontinental trains. 2. New Cascade Line in Oregon completed. A shorter route through marvelous scenic country of

forests, rivers, and sparkling lakes. 3. New "West Coast", saving 6 hours 55 minutes between Los Angeles and Portland. Over the new Cascade Line in Oregon. Sleepers through to Tacoma

4. New "San Joaquin", daylight train placed in service between Los Angeles and San Francisco through San Joaquin Valley. 5. Through Sleeper to Chicago via OVERLAND ROUTE (Lake

Tahoe Line) on the "Padre" to Oakland and from there on the new "Gold Coast Limited." 6. Through Pullmans to Del Monte and Yosemite, giving

direct overnight service from Los Angeles. 7. On the "Lark" - new bedroom cars, an innovation in western railroading, and inauguration of light supper refreshment service in the din-

ing car-Los Angeles-San Francisco.

## **Travel Progress**

8. New "Sunset Limited", entirely new equipment-new Pullmans, modern club, observation and dining cars; shower baths, and added service of valet, barber, and ladies' maid. On SUNSET ROUTE, between New Orleans and New York the magnificent new steamship "DIXIE."

9. New refinements on "Apache" Los Angeles to Chicago, including shower baths, valet, barber. Club car placed in service too.

He is a shotputter on the track team, and was a fullback on the football team during the past season, was elected captain for next year. It is a shotputter on the track team, and was a fullback on the football team during the past season, was elected captain for that position. Louis Vincenti, senior, from Pasadena, who played forward on the basketball team during the past season, was elected captain for that period. The team played through the senson without a captain, and the position is entirely honorary. Rickard to New York and Mullen to Chicago.

In the meantime Pop Foster, the canny manager of the Coast's baby-face puglistic wonder, is enjoying a hearty chuckle. After the Terris knockout he signed with Rickard for a champion-ship match in May, leaving it entirely up to Tex to get Mandell's name on a contract. But all the time he knew Mandell was signed with Mullen to defend his title at Soldier Field this summer because the Chicago promoter had tried to grab McLarnin ing here.

As a result old Pop has the promoters in the middle. If Rickard a last-period rally to tie the Grover can't buy off Mullen the scrap will go to Chicago because Tex can't night at the Winter Garden. Joe Guerrero Faces Lunde in Semi-Wind-up Event

Hollywood has gone daffy over heavyweights. They have seen so many good shows this year at the stadium that Tom Gallery has men scouting the country for good fight-seen the hits. Red Fitzsimmons is a favorite because he hits. Red Fitzsimmons is a favorite because he hits. Red Fitzsimmons is a favorite because he his a color-ful fighter. Red made good the first start. He jumped right out and walloped Jack Roper in such a manner that all Hollywood knew a new star had been discovered.

Several eastern fight men who were here for the Godfrey-Uzcudun fight have engaged ringside seats. The demand for California fighters in the East is getting great-revered for The Belsend has an

Has a right hand which is a sure sleep producer if he connects. Vigo puts it on exhibition tonight when he meets "Red" Fitzsim-mons at the Hollywood Legion Stadium.

A Southern California in the interest of the Junior Olympic Games we have been reminded of a lot of famous reminded of a lot of famous athletes and athletic contests of the dark ages through the simple fact that many of the celebrities of a decade or more ago are now busily engaged in making athletes out of the younger generation at the various schools and junior colleges of the Southland. Boyd Comstock, who dates back about the same distance, has had a similar experience that is certainly interesting to a couple of old broken-down checker players like ourselves.

For instance we percolated over to Ontario, between organization meetings at Riverside and San Bernardino, to see Bill Neufeld's Riverside junior collegians beat the Chaffey boys. The first old-timer we collided with was Carl Hall, one of the most-famous battling Trojan distance men of the period around 1910. He was about as consistent a point winner in the half and mile as the Trojans ever had, winning points in all their meets. He is a vice-principal at Chaffey.

And then, helding the watch in the frack meet was "Pop" Fischer, who car"; pretty close to being the greatest distance runner ever developed in Southern California in the old days. He was practically unbeatable in the mile and two mile, always running both events for Pomona and always winning. One bright afternoon against California he ran the mile in about 9m. 54s. and wasn't even tired enough to slow down to a walk en route to the showers after the race.

Down at San Bernardino there was Drury Wieman, one of the best of a great athletic family. Drury was a football and baseball and track demon at Occidental and while he weighs about 240 nowadays he enjoys the reputation of being San Bernardino's best handball player. Vic Hodge is a big mogul in the San Bernardino city schools. He was one of the South's best quarter-milers around 1912 to 1914, running close to 50s. consistently, and winning for Southern California against the northern schools several times.

Captain-elect Joe Fleming will lead the troupe that will begin limbering up today. Fleming has carried on light training since the close of the season and is already in good shape.

Spaulding has veterans back for every position on the team. And in addition there is every indication that his 1923 machine will be considerably heavier than the one last fall. Earl Fields and Ciff Simpson will be back at fullback. Fleming, La Bucherle and Russon are the veteran halfbacks. There is a possibility that La Bucherle will be shifted to quarter to fill the vacancy left by Birlenbach.

Barta, Bishop and Rasmus, all letter men, will be aspirants for wing positions, while Tandy and Nelson are veteran tackies who will have Singer, Noble and Brown. Epstein and French are the returning centers.

## ATHLETES OUT SPRING TRAINING

AVALON, March 1.—Joe McCarthy opened a class in sliding at the Cubs spring camp today, and had more instructors than pupils. The one athlete deemed in need of drilling in this particular phase of the national pastime was Elwood English, the shortstopping phenom. He was put to work under the watchful eyes of Kiki Cuyler and Hack Wilson, both of whom not only love to bounce into a base feet first but know how it should be done.

In the moraing drill Nehf, Manich and Holly pitched to the batters, while Yoter, Beck, Maguire and Hald. In the afternoon the other in-field was made up of Butler, English, McMillian and Kelly, while the two Bush brothers and Weinert and Mahan, the latter an unsigned southpaw, threw to the batters.

Bob Osborn's and Weinert and Mahan, the latter am unsigned southpaw, threw to the batters.

Bob Osborn's arm that was of last season is still a source of worry for McCarthy. The tall Texan insists his working limb is as loose as dust; but when he pitches he shows he is afraid to turn loose for fear of recurrence of the ailment.

Pete Gink Fowler, the southpaw who refused to report because he couldn't get 10 per cent of the money paid to the Allantic club for his services, will arrive in camp Saturday, He will have to be quite a rockie if he is going to beat out such capable and experienced southpaw as Ari Nehf, Ferey Jones and Phil Weinert.

March 1, the dead-line date for players to report, found a number of players listed as holdouts, including Dassy Vance of Brooklyn, Carl Mays and Pete Donohue of Cincinnati, Tony Lasseri and Waite Hoyt of the New York Yankees and Fiint Rhem of the St. Louis Cardinals.

Late arrivals, however, continued to report and some managers reported their rosters "all present."

Longer and harder practice programs were the order of all fronts, with the presence of Bucky Harris, Washington Senator manager-second baseman, and Tris Speaker of the Philadelphia Athletics spurring their team-mates to brisk action at Tampa and Fort Myers, respectively.

At New Orleans Cleveland's Indians showed so much 'life under a hot sun that they drew expressions of delight from Manager Roger Peckinpaugh.

Manager Ray Schalk told his Chicage White Sox at Shreve-port today that they would have only one practice session daily instead of two. They got in a brisk workout despite the absence of about eight regulars, who are expected soon.

The Phillies at Winter Haven, the St. Louis Cardinals at Avon Park and the Athletics all were put through double practice sessions.

(Continued from First Page)

He has already bid \$30,000 and he'll undoubtedly raise the ante because Jimmy is said to be the most popular fighter that ever stepped into a ring in Chicago, barring nobody—not even a Dempsey in his heyday.

Although Lloyd Hahn's victory over Ray Conger at New York the other night was quite outstanding and deserved the big play it received, another notable triumph was almost buried in small type. This was the one scored by Fred Alderman over Roland Locke in a special 300-pard race. The Michigan State flyer won by four yards in a driving finish and demonstrated that he is in wonderful form for so early in the year. The time of 32 3-5s. on the boards is not to be sneezed at.

Until last spring very little was heard of Alderman, but suddenly he popped up as a sprinter of the first degree, and when the dope sheets were made up for the LC.A.A.A. games he was considered as one of Charley Borah's formidable rivals. But after winning his 220 heat in 214-10s.—faster than Borah traveled in his heat—Alderman ditched the furlong on the day of the finals and much to the surprise of everybody walked off with the quarter-mile in the fast time of 483-10s, beating such veterans as Cooke and Barbutti of Syracuse. Right now Alderman looks like the United States' best bet in the 440 for the Olympic Games, his victory the other night being an escellent demonstration of what may be expected of him this year. He seems to be one of those rare individuals who can sprint and has the staying powers for the guarter.

If George Blake took to heart the silly panning that one or two local scribes gave him for the Godfrey decision the other night, he needs only to comfort himself with the thought that not a single out-of-town newspaper man gave the decision to Uscudun or even considered that he had a chance for a draw. Of the visiting boxing writers on the Coast there were five from San Francisco, one from Oakland, one from San Jose and four from Portland. All voted for Godfrey, and so did the news-service men here from Kansas City, Chicago, Philadelphia, New York and other points—with but one exception.

OAKLAND, March 1. (P)—Walter
(Biff) Schaller, former San Francisco Seal and one-time major league baseball star, fell victim of a Sheriff's office raid in Emeryville, an Oakland suburb, today. He was arrested on charges of violating the Wright Act after police and deputy sheriff's raided the establishment in search of marcotics.

No narcotics were found, but liquor was, and Schaller was taken to it all, later to be released on \$500 ball.

Schaller was outfielder for the Scals in 1917. For several zeasons he was with the Chicago White Soc.

### THE CALIFORNIA BOTANIC GARDEN

WHAT is a botanic garden? That's a common question in Los Angeles today. For with the largest Botanic Garden in the world established here - the first one west of St. Louis -more must be known of such institutions.

Great Britain has many botanic gardens. The United States has five, including yours, in Los Angeles. Experimental work done at Kew Gardens in London changed the rubber industry of the world. India is rejuvenating her agriculture through hundreds of similar

gardens. Trinidad saved her cocoanut plants tions; Jamaica her banana industry, through experiment in her botanic gardens.

A great measure of Britain's commercial and cultural domination may be traced to her botanic gardens. America is following, the California Botanic Garden is helping to show the way. For your own sake, and for those whom you influence, you must know more of this local development. A conducted tour of your Botanic Garden will be arranged at your request.

BARNSDALL MOVE DUE SOON FINANCIAL INDEX The following index will be found

Resumption of Cash Dividends Forecast by Earnings in 1927; \$2 Annual Rate Expected

BY EARLE E. CROWE

When the directors of the Barnsdall Corporation meet for action on the next quarterly dividend, resumption of payments in cash is a strong possibility. The 1927 annual statement, released yesterday, is sufficient ground for this conjecture, since it shows an ample margin over the former annual rate of \$2.50 a share.

Since Barnsdall suspended cash-absence of working stocks at the payments about the middle of last year, the quarterly payments of 62½ cents a share have been supplanted.

The status of Seminole activity

spayments about the middle of last year, the quarterly payments of 62½ cents a share have been supplanted by 2½ per cent quarterly distributions in stock. The two last dividends have been met in this manner, which has permitted the company to conserve its cash resources, and at the same time protect its stockholders against the absolute loss of return.

ENCOURAGEMENT GIVEN

Earnings for 1927, however, covered the former \$2.50 rats by more than \$1 a share, which undoubtedly will encourage the stockholders to expect at least a partial return to the regular basis before long. The chances would seem to favor the declaration of a \$6-cent quarterly rate, or \$2 annually, which was the regular rate before the increase in March, last to 62½ cents quarterly.

Barnsdall's 1927 statement does not by any means show a condition equal to the previous year, but it is, nevertheless, a creditable report.

Not increase amounted to \$4.200.111.

SINKING FUND SUFFICIENT TO REDEEM ENTIRE ISSUE BY MATURITY

The following is summarized by the President of the Corporation from his letter to the

Organization-The Glendale Masonic Building Association was incorporated un-der the laws of the State of California October 3, 1912, for the purpose of acquiring adequate housing accommodations for the various Masonic Orders located within the Glendale district. The entire ing Association will be owned by various lodges and

Security— The bonds will be the direct obligation of the Glendale Masonic Building Association and secured by a first lien on 64 feet of frontciation and secured by a first lien on 64 feet of frontage on the east side of Brand Boulevard between Colorado and Broadway, having a depth of 125 feet, and on improvements to be constructed by giving effect to this financing, consisting of a modern Class "A" steel frame fireproof building covering the entire area, containing four main floors and a mezzanine between floors. In addition these bonds will be a first lien on the southwest corner of Central Avenue and Maple Street, having a frontage of 125 feet on Central and 140 feet on Maple. All property is owned in fee and this issue of bonds will constitute a closed lien, limiting the loan on the security pledged to amount of this mortgage. pledged to amount of this mortgage.

Improvements—The first floor and basement of the structure are arranged to accommodate business tenants. The property is so centrally located as to make it highly desirable for this purpose, assuring a substantial and permanent income from this source. This building will embody the most modern features of construction with the usual accommodations for the various Masonic activities and will include an auditorium of 1,100 scating capacity, which will be available to various civic organizations.

Location—Glendale is an important suburban area immediately adjoining the City of Los Angeles. The site of the Glendale Masonic Building Association is considered one of the most important business locations in that rapidly-growing city.

Appraisals— The land and building have been appraised by Mr. Blon L. Brown as having a value on completion:

Building ...... \$ 294,500 Land Value ...... 165,500

Charges created by this issue is assured to the Glendale Masonic Building Association through a joint and several lease of the entire building signed by three of the largest Masonic building signed by three of the largest Masonic bodies in Glendale: Unity Lodge No. 388, Free and Accepted Masons; Glendale Lodge No. 544, Free and Accepted Masons, and Unity Chapter No. 116, Royal Arch Masons, having a non-duplicating membership of over 1,000. In addition to the above mentioned lodges, arrangements have been made for space in the building by eleven other Masonic Organizations, bringing a total membership using the building to approximately 2,000.

Provisions of the A bondholder's policy of title Trust Indenture—insurance will be issued by the Title Guarantee and Trust Company for the full amount of this issue and will be deposited with the Trustee. A sinking fund will be established to retire the entire issue by maturity. The Company covenants to maintain, at all times during the life of the issue, full insurance coverage for the protection of the bondholders, including fire, earthquake, public liability, elevator, boiler insurance, etc. A completion bond will be filed with the Trustee by the contractor insuring completion of the building free of liens and in accordance with specifications.

Moral Responsibility—In his appraisal report,
Mr. Elon L. Brown states
that after investigation he "is unable to find a single
case of record where a Masonic Organization Building Bond issue has been the cause of loss to the investing public by reason of default or otherwise."

Legality—All procedure In connection with this issue has been approved by the legal firm of Farrand & Slosson for the Underwriters and Mr. Newton Van Why for the Corporation.

12 FRIDAY MORNING. RANGE OF STOCK VALUES NARROW (Continued from Tenth Page) American Can closed fractionally higher and American Smelting and General Electric lost ground. General Electric lost ground.

NICKEL FEATURES

The hirried retreat of an overcrowded short interest in International Nickel carried that stock up 11
points above last week's low, but
part of the gain was lost on realizing. Radio also was bid up at the
expense of the bear crowd, rallying
from a low of £9.7-8 to 96.3-8 and
closing within a fraction of the top.
Outstanding strength also was
abown by American Encaustic Tiling. American Safety Razor, Bayuk

A letter from Mr. Chas. A. Stevens, President of the Company, is summarized as follows:

Property and Location: The State and Washington Buildings, previously known as the Columbus Memorial, Venetian, and Stevens Buildings, are located at and adjacent to the corner of State and Washington Streets, Chicago. They are in the very heart of the great shopping district of Chicago, the per-manency of which is assured by the large fixed investments of great neighboring mercantile establishments. The

corner of State and Washington Streets, having a frontage of 120 feet on State Street and 150.6 feet on Washington Street, is owned in fee. The remainder of the land having a frontage of 72 feet on State Street and 48 feet on Wabash Avenue is held under leaseholds each with more than sixty years to run. The three buildings (one 13-story, one 14-story, and one 19-story) are of fireproof structural steel framing and tile ar uction and have an aggregate available rentable area of 494,890 square feet, more than 95% of which is rented.

Purpose: The entire proceeds from the sale of these Bonds will be used for refunding purposes to accomplish the simplification of the Corporation's capital structure reducing it to these Bonds, as the sole long-term obligation, to be presently outstanding, and to one class of share capital.

Security: The Mortgage under which the \$10,000,000 principal amount of First Mort-gage Sinking Fund 5% Gold Bonds, Series A, and \$1,250,000 principal amount of 5% Sinking Fund Mortgage Gold Bonds, Series B, (subordinated to the lien of the Series A Bonds) will be initially issued, will be secured, upon completion of this financing, in the opinion of counsel, by a first mortgage on all of the fees, improvements, and leaseholds owned by the Corporation, and above described. These properties have been recently appraised by in-

dependent appraisers at an aggregate value of \$20,089,-060, consisting of \$9,488,-800 as the value of the fees exclusive of improvements, \$5,321,910 as the value of improvements on fees and leaseholds, and \$5,278,350 as the value of the leaseholds. Additional bonds not to ex-Additional collection of \$8,750,000 may be issued for acquisitions, improvements, etc., but only under the carefully drawn provisions of the Mortgage.

Chas. A. Stevens & Br established in 1887, and today one of the leading State Street department stores, has recently taken a 25-year lease covering the 180,000 square feet it now occupies, and calling for a net annual rental of \$720,000 which becomes an

Wool Company Earnings Gain

NEW YORK, March 1. (P)-A. G. Pierce, president of American Woolen Company, says the period of drastic losses from operations apparently has ended, preliminary figures for 1927 indicating the configures for 1927 indicating the company earned in the neighborhood of \$2.500,000 and about \$500,000 after full depreciation charges.

The company's financial position at the close of the year was the most satisfactory in a long time. Bank loans were down to \$1,300,000, lowest on record, while cash gained during the year to \$8,000,000. Working capital was \$64,000,000.

### St. Louis-San Francisco Railway Company

Consolidated Mortgage 41/2% Gold Bonds

A material improvement in the capital structure of the Railway Company will be accomplished through the sale of these \$100,000,000 4½% Bonds under the new Consolidated Mortgage and through the issue of \$49,157,400 6% Preferred Stock (to be offered to the Common Stockholders), which you have underwritten. Funded debt will be reduced by \$26,292,000 and will be about 2.4 times the capital stock as against about 4.2 times at present; fixed and contingent interest charges will be reduced by over \$2,900,000 per annum.

interest charges will be reduced by over \$2,200,000 per annum.

The proceeds of this financing will be used to pay \$126,292,000 Bonds and Notes (of which \$103,073,000 bear interest at the rate of 6% and \$17,173,000 at the rate of 5½%), to\_retire \$7,500,000 6% Preferred Stock, and to provide about \$9,000,000 for corporate purposes.

The Consolidated Mortgage Bonds will be secured

(a) by deposit of over \$66,630,000 underlying Bonds (\$47,630,000 St. Louis-San Francisco Railway Company Prior Lien Mortgage Bonds and over \$19,000,000 Kansas City, Fort Scott and Memphis Railway Company Refunding Mortgage Bonds);

(b) directly, or through pledge of all outstanding securities, on 4,292 miles of road of the St. Louis-San Francisco system proper, together with equipment, terminals, ahops, etc.;

(c) by substantially all the stock or properties of the Kansas City, Fort Scott and Memphis Railway Company, owning or controlling 1,331 additional miles of road;

(d) by all properties hereafter acquired with the proceeds of Consolidated Mortgage Bonds.

The Bonds will be subject to \$162,420,520 underlying Bonds in the hands of the public (the amount of which can not be increased), to \$17,438,000 Equipment Trust obligations and to any liens on after-acquired property. The underlying Bonds can not be extended and Consolidated Mortgage Bonds will be reserved to refund them.

The Consolidated Mortgage Bonds will be issued under an Indenture to Interstate Trust Company, New York, and John A. Aid, Esq. St. Louis, Trustees. There will be presently insued not exceeding \$110,000,000 Series A

Bonds, of which all in excess of \$100,000,000 will be placed in the treasury. Additional Bonds may be issued in series with such provisions as to interest, maturity, redemption, etc., as may be determined by the Board of Directors, under restrictions to be set forth in the Indenture, but at no time shall the principal amount of Consolidated Mortgage Bonds outstanding, together with all bonds prior in liea, exceed three times the then outstanding capital stock of the Railway Company.

Ground Control of Cont

The above total income for the year 1922 was equal to over 1.9 times the annual interest charges (about \$12,346,000) on the funded debt after completion of this financing, and the average for the past five years was equal to 1.8 times such interest charges.

The Railway Company will have outstanding \$49,157,400 par value 6% Preferred Stock and \$65,424,900 par value Common Stock, on which dividends are being paid at the rate of 8% (7% regular and 1% extra) per annum.

rate of 8% (7% regular and 1% extra) per annum.

The St. Louis-San Francisco Railway System operates a total of 5,707 miles of road. Lines extend from St. Louis and Kansas City through Missouri, Kansas, Okiahoma, Arkansas and into Texas, and an important line, crossing the Mississippi River at Memphis, passes through Tennessee, Mississippi and Alabama to Birmingham, and, on completion of an extension now under construction, will reach the port of Pensacola, Florida, on the Gulf of Mexico. About two-thirds of the System's traffic originates on its lines. Both road and equipment are in excellent physical conditions. During the past ten years expenditures for additions, improvements and new equipment were about \$87,000,000, after deducting the cost of property retired.

Application will be made to list these Bonds on the New York Stock Exchange

The issuance and sale of these Bonds are subject to the approval of the Interstate Commerce Commission and of the Stockholders of the Company. All proceedings in connection with the issuance of these Bonds are subject to the approval of Mesors. Cadwalader, Wickersham & Tafs for the Bankers and of Mesors. Crawath, Henderson & de Gersdorf for the Company.

We offer the above Bonds for subscription, if, as and when issued and received by us, at

97% and accrued interest, to yield about 4.65%

We reserve the right to close the subscription at any time without notice, to reject any application and to allot a smaller amount than applied for. Amounts due on allotment will be payable at the office of Speyer & Co., 24 & 26 Pine Street, in New York funds, on or about March 20, 1928, as called for, against delivery of Interim Receipts exchangeable for Temporary or Definitive Bonds when ready. James Atkens, ex-Lieutenant-Gornor of Manitobs, founder and for many years president of the Canadian Bar Association.

Declaring Canada never should consider entering into any Panernor of Manitobs, founder and for closer association between British possessions of this continent to maintain and promote British ideals in the New World.

Specifically the 76-year-old politician and jurist from the West preached closer relationship between Canada and the British West Indies group of islands. He foresees the day when the center of the British Empire might be in Canada and believes that in the meantime British ties on this continent should be strengthened. In his references to the United States he urged Canada to excel the Americans, stating that the United States' exports to the West Indies exceed by five times those of Canada. right.

The disposition record drawn up by the two officers said that both the District Attorney's office and that of Dr. Lickley had refused to issue complaints. Dr. Lickley is investigating this angle.

Crostand, after his arrest, was held at Wilshire station until late Monday and then was released. His arrest was kept quiet and it was not until shortly before his release that it became known he had been held in jail for twenty-four hours.

From the arrest report it was learned that Crostand originally had been booked on suspicion of violation of the California Vehicle Act section covering hit-and-run drivers. This charge is a felony. The disposition report shows that the felony warrant was refused and that the reduction to reckless driving then was authorized.

"We are going to investigate the case thoroughly" said Dr. Liekiey, "and will go into every circumstance to see why the complaint was not issued in the regular manner. Whatever we discover will guide our future actions."

In issuing the complaint Mr. Concannon ordered Crosland booked as soon as apprehended.

The incidents mentioned, both of which occurred at times when the Council was supposedly engaged on official business, are by no means exceptional. They typify an attitude toward the responsibilities of the high Councilmanic office which, in the absence of effective rebuke, is becoming fixed in the minds of certain of our "City Fathers."

ESTERDAY we drove out to Pacific Lodge, near Pomona, and learned a lot of things every father should know. Pacific Lodge is a home for "prob-

The result is that 78 per cent of those boys are turned out better citizens, 18 per cent are found incor-rigible and turned over to the State school at Whittier, and 4 per cent run away.

run away.

They are healthy, bright-faced, eager lads, interested in their personal appearance, their record for sportsmanship, their ability to do manly and useful things, and their standing in school. They make one think of Riley's poem:

"I think children's always good, If they's only understood."

If they's only understood.

Student Discipline

Pacific Lodge was started four years ago as result of a plea by Judge Hahn for just such a school. Now 80 per cent of the sixty boys there have come from the Juvenile Court, but some have come direct from their parents.

As soon as a boy reaches Pacific Lodge he is put in a squad, under command of a corporal. At 5:45 a.m. he must be up and dashing for the shower baths—and if he shirks

manners are displeasing it is the squad, not the management, which corrects him. He learns he must be clean, well-behaved, sportsmanlike in play, ready to do his share of the work and uphold the reputation of his squad in order to win the respect of his fellows. The supervisors merely see to it that he is given every encouragement.

How to Make Boys Good

"We find there are no bad boys so long as they are busy," O. E. Badders, boys' counselor and active manager of the home, says. "From the time they get up till bedtime these boys are occupied. Besides going to school, they have football, baseball, basketball and other teams,

Competitive Bids

LOS ANGELES Feb. 24.—(To the Editor of The Times:) I have been reading with considerable interest recently your news and editorial articles on the subject of competitive bids for our ornamental attreet lights. When a petition was circulated recently, which I was asked to sign, proposing to put new street lights in on a certain street, I brought up the question of "competitive bids" on these ornamental lamp posts. As you are interested in this subject, I think you will be amazed, as I was, to find that competitive bids on a given design of lamp post are not afforded the property owner. Can't we bring this to pass at the same time you successfully bring about the competitive bidding for supplying current for these ornamental lamp posts?

The corps of experts engaged in supervising the construction of the new \$7,000,000 plant of the Firestone Tire and Rubber Company at South Gate was augmented yesterday by the arrival from Akron, O., of Curt Uschman, chief of mechanical trades, according to C. A. Meyer, director of engineering for the Firestone company.

director of engineering for the stone company.

When the plant is started Uschman is to become master mechanic in charge of maintenance and operations. This is in line with the Firestone policy of bringing department heads to Los Angeles from eastern plants but to recruit the remainder of the 2500 future employees from among local residents, Meyer explained.

### Shopping Tour Held Prelude to Store Robbery

Mateo Magdalena spent \$32 for groceries in a shopping tour December \$, 1927, through the store of Harry Rosenberg, 3591 East First street, to obtain first-hand knowledge of the building before he held up the proprietor, according to reports filed with the Sheriff yesterday by Deputy Sheriffs Lampkin and Moffett.

The following night, according to the officers, Magdalena returned equipped with a mask and ordered the proprietor to "stick 'em up." Rosenberg obeyed, but after inspecting the bandit carefully, he said: "I know you. You are the man who bought \$32 worth of grocries here last night."

Rosenberg says he lost almost \$1000 worth of jewelry as a result of the raid, and Deputy Sheriffs Lampkin and Moffett are preparing a complaint.

Calendar Plan in Civil Courts

The civil departments of the Superior Court yesterday began operating under the master calendar system, introduced by Presiding Judge McLucas to conserve court time and expedite proceedings.

The civil courts are divided into groups, with a master department at the head of each. All cases are set originally for hearing in the master departments, and transferred out on the day of trial to other departments. This makes it possible to fill each department's calendar each day.

The system has been used for several months in the criminal departments. The civil departments of the Suthat make your smile the social and business assetthat it should be ask your druggist today for Colgate's.

Science Says Soft Life and a Soft Diet Are Dangerous

90% of modern city people suffer from constipation, says medical science. Irregular and incomplete bowel movements are the causes of sallow cheeks, headaches, aleeplesaness, and loss of vitality, and almost always pave the way for more serious aliments. Frequently constipation is the starting point of trouble which results in premature disability or death.

Soft life and a soft diet are the principal causes of constipation. The relief is simple—add natural 100% bran—Pillsbury's Health Bran—to your diet. Don't form the dangerous laxative habit—use roughage, the natural cure. Primitive man ate roughage, and had no constipation. Modern man needs roughage—the best kind is the true 100% bran, Pillsbury's Health Bran. It furnishes the bulk you need so badly.

Warning—be sure you get natural 100% bran—Pillsbury's Health Bran. That's the kind of bran your doctor means when he says. "Eatbran." Because it is uncooked, unsweetened and unsadulterated, it really does the work—you get the full, gentle, natural laxative action of the unbroken flakes. You can use it to prepare any number of delicious foods—muffins, tea-cakes, apple cake, macaroons, doughnuts, etc. That's the way to eat bran—your own home baking does not crumble it and reduce its laxative value.

"TIMES" IN COMPLETE NEW DRESS

Times readers.

The new body type—that used throughout the news columns of this edition and to be used hereafter in all issues of The Time—is that selected by The Times following a nation-wide survey made with the co-operation of the American Optical Company for the single purpose of picking a type suitable for newspaper use, which would combine the qualities of maximum clearness, legibility, freedom from tendency to blur through filling up with ink, and beauty. The type selected and now in use by The Times received 3297 votes out of a total of 3766 cast

In varying sizes, the new type is now in use in all parts of The Times with the exception of display advertising, where it is not required. The classified advertising, market tables and the like, where small type is employed, is the same type in reduced size as that of the

The new Ionic type is an exceptionally readable face. of these things go to make this new type a most desirable newspaper face.

There are no "pin-holes" or sharp corners to fill up with ink; nc fine lines to break down in stereotyping. The even color of the character is particularly adapted to the "roughness" of newspaper stock. The outstanding advantage of the new face is its conservation of vision. The even tone throughout is restful to the eyes without being monotonous. There is enough variation to avoid tiresomeness, yet not enough to be disconcerting. A happy medium has been effected.

mark in the beauty of the whole wood-winds were the feted instruments.

Mr. Schneevoigt was at his happiest and best in this symphony. Essentially a man of the theater as he is and always quick to see the humorous side, he succeeded in carrying the audience and the orchestra through the fifty-minute variation of many moods with a maximum of interest.

Ravel's ballet masterpiecs. "Daphnis et Chice," was represented by the first series of three fragments symphoniques done with atmospheric charm and a tonal texture from the strings that colored the imagination. Ballets played by orchestra without the ballet are at best, but lovely reminding of what might be. Why can't we have a real ballet perform with the Philharmonic Orchestra so quite evidently interested in programming ballet music. Surely a well-trained ballet with the orchestra would be of more interest than the type of soloist appearing on the orchestra programs thus far this year.

Arthur Hackett-Granville's sympathetic voice and poetic leaning suit the "Invitation au Voyage" and "Phydile," by Dupare, which he sang with sincere feeling. The "Prize-Song" from "The Mastersligers" did not fare so well, but this very difficult number with its exacting requirements of breath and power could not be expected to be sung in anything more than an acceptable manner without rehearsals.

Harold Bauer is announced as the soloist for the next symphony:

Equity Night

Set for Sunday

Elaborate plans are going forward at Shrine Civic Auditorium for the observance of equity night Sunday in conjunction with the final performance of "Firefly," the tenth and last light opera of the Shrine musical season.

In addition to presenting in "Four Sons," the Carthay Circle Theater is also offering one of the biggest musical fantasies ever seen on a local stage.

This stage production, conceived and built by Jack Laughlin, is called "Happiness," and it introduces a company of more than fifty statemed performers.

The actting, with its real waterfalis, Alpine mountains as a back-seround and its seen of a pretty Bavarian village, all lighted in colors, rendered by male and female voices, comprise one big feature. Among the soloists are Myrtle of twenty is another outstanding hit. Also there is a large group of Bavarians brought direct from Europe for this production, which offers a number of native dances and song that are novel, tuneful and entertaining.

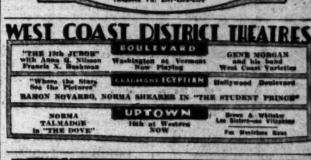

Then there is Ivan Bankoff, international dancing star, and Kosloff's Ballet.

Admiral De Steiguer May be Sent to Com Annapolis Academy, Says Navy Run

Reports are current in the fleet that Admiral Louis B. commander-in-chief of the battle fleet, may become superthe United States Naval Academy, succeeding Rear Admiral Nulton, who is scheduled to go to sea. The rumor coopinion that Admiral De Steiguer, when he hauls down his pletion of the Hawaiian cruise, will go to New York as can the navy yard and the Third Naval District.

commanding Barour, will go to couting fleet, retiral Ashley H. I ed to return.

## **OUR HISTORY IN PICTURES**

INSIDE DETAILS

According to Lewis's testimony, the first of the overlassied stock appeared on the market and in the possession of stock brokers early in January, 1925.

In confirming previous intimations that he will take the witness stand at the proper time, Lewis announced that he does not intend to "squeal" on anyone, but will tell the inside details of the operations which, according to the prosecution. which, according to the prosecution, wrecked the company and threw the affair into the hand of Federal

MORE DISCLOSURES He further intimated that he will disclose where the \$34,000,000, which unditors to date have been unable to account for, went.

The reading of this testimony is expected to consume at least another day.

SAMOA, THE UNITED STATES HAD AGREED TO PROTECT THAT TINY ISLAND KINGDOM AGAINST THE AGCRESSION OF FOREIGN POWERS. WHEN GERMANY SET UP A RIVAL SAMOAN KING AND SENT WARSHIPS TO SUPPORT HIM, AMERICAN WARSHIPS WERE DISPATCHED TO SAMOA.

THE ISLANDS WAS IMMINENT. IN MARCH, THREE AMERICAN, ONE BRITISH AND THREE GERMAN WARSHIPS LAY IN THE HARBOR OF APIA, DECKS CLEARED FOR ACTION, AND READY TO FIGHT AT THE FIRST PROVOCATION.

BUT THE IMPENDING CLASH WAS AVERTED BY A MICHTY TROPICAL STORM THAT SWEPT DOWN UPON THE ISLAND ON MARCH 15TH. THE AMERICAP AND GERMAN WARSHIPS WERE WRECKED ON THE BEACH, AND THE BRITISH WAR STEAMER ALONE MANAGED TO GET TO SEA AND OUTRIDE THE STORM.

BEGOTIATIONS FOLLOWED WHICH RESULTED IN GERMANY SEING FORCED TO AGREE TO A JOINT PROTECTORATE OF THE THREE NATIONS OVER THE ISLANDS. IN 1900, ENGLAND WITHDREW, THE UNITED STATES WAS GIVEN TUTULLA WITH THE SPLENDID HARBOR OF PAGO. AND GERMANY GOT THE REST OF SAMOA.
